1. [REDACTED], OP/SAS, called to advise that [REDACTED] is in town. She has visited the Civil Service Commission in an effort to file a grievance and informed the Commission that she hoped to see Senator Goodell.

After [REDACTED] call I called Don Costello, on the staff of Representative James M. Hanley (D., N.Y.), to alert him. Costello said that [REDACTED] had been in touch with them on Friday and would be in to see them today. I told Costello that we would like to see [REDACTED] if she would come to [REDACTED] office or as an alternative we would be glad to have [REDACTED] meet with her on the Hill. I gave Costello [REDACTED] number in the event he wanted to contact him on this.

Murphy asked if we would provide the JCAE staff with any information we had on Soviet strategy regarding the SALT talks.

Murphy also asked if I would check with our people to obtain any information we might have as to what is motivating the Soviets in their Plowshare Program.
